

REACH Regulation

Ladies and Gentlemen,

On 1 June 2007, Regulation (EC) N° 1907/2006 of the European Parliament and of the Council of 18 December 2006 on the **Registration, Evaluation, Authorization and Restriction of Chemicals ("REACH")** came into force. The new REACH Regulation requires a registration at the European Chemicals Agency (ECHA) between the end of 2010 and 2018, depending on production volumes. In order to apply for these transition periods, substances need to be pre-registered by December 2008.

Aurubis AG has fulfilled all registration obligations of the first deadline December 2010. Substances of our product portfolio with a later deadline have been pre-registered and will be registered by due date according to the requirements of the REACH Regulation.

The REACH candidate list contains 209 Substances of Very High Concern (SVHC'S) in the 25th of June 2020. We do not use them in our products.

The Aurubis Finland Oy's contact person for REACH issues is Mrs. Katja Silvanto (k.silvanto@aurubis.com Tel +358 2 6266111).

Yours sincerely

Katja Silvanto

Environmental Manager
